AUTHOR DISCLOSURE

Manuscript Title: ____________________________________________________________

Manuscript number: __________________________________________________________

Is there more than one author on this manuscript? □ Yes □ No

If yes, all authors must individually submit this form.

Your Name: __________________________________________________________________

Address: ___________________________________________________________________

E-mail address: __________________________________________________________________

Dear Author(s):

Thank you for submitting your manuscript to Physiotherapy Canada. Upon submission, all authors must sign and return this form. Publication cannot proceed without a signed copy of this form.

A. AUTHORSHIP

All authors must verify they qualify for authorship according to the International Committee of Medical Journal Editors (ICMJE) criteria for authorship. All three of these criteria are required to qualify for authorship. If you contributed to the manuscript but do not meet all three criteria, you should be listed in the acknowledgements section but cannot be an author.

1. Did you make substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data?
   □ Yes □ No

2. Did you draft the article or critically revise it for important critical content?
   □ Yes □ No

3. Did you give final approval of the version of the article accepted for publication?
   □ Yes □ No

   In addition, authors must verify that all manuscript contributors have been identified.

4. Have all persons who contributed to this manuscript been included either as authors or in the acknowledgements section?
   □ Yes □ No

Please fill out all pages of this form and e-mail it to Editorial Assistant Sandra Gautreau at sgautreau@utpress.utoronto.ca. Should you encounter any difficulties, please e-mail me directly.
B. CONFLICT OF INTEREST

All authors must disclose any financial relationships with commercial interest(s) that produce healthcare products or services discussed in the manuscript as well as any relationships or activities that present a potential conflict of interest.

In the past 3 years, have you had financial relationships or affiliations with any commercial entity related to products or services discussed in the manuscript?

☐ Yes (Please provide specific information below) ☐ No

Are there other relationships or activities that readers, reviewers, or editors could perceive to have influenced, or that give the appearance of potentially influencing, the manuscript?

☐ Yes (Please provide specific information below) ☐ No

C: INFORMED CONSENT

When appropriate, all authors must include proof of informed consent as per the Uniform Requirements for Manuscripts Submitted to Biomedical Journals. This must be documented in your paper.

Please fill out all pages of this form and e-mail it to Editorial Assistant Sandra Gautreau at sgautreau@utpress.utoronto.ca. Should you encounter any difficulties, please e-mail me directly.
D: PROTECTION OF HUMAN SUBJECTS AND ANIMALS IN RESEARCH

When reporting experiments on human subjects, authors must indicate whether the procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional and national) and with the Helsinki Declaration of 1975, as revised in 2000 (5). If doubt exists whether the research was conducted in accordance with the Helsinki Declaration, the authors must explain the rationale for their approach, and demonstrate that the institutional review body explicitly approved the doubtful aspects of the study. When reporting experiments on animals, authors should be asked to indicate whether the institutional and national guide for the care and use of laboratory animals was followed.

- International Committee of Medical Journal Editors ("Uniform Requirements for Manuscripts Submitted to Biomedical Journals") -- February 2006

I certify that the information provided is true, complete, and correct to the best of my knowledge. I understand that failure to disclose or false disclosure is publication misconduct and may result in rejection of the manuscript or a correction of the published article.
